EDUCATION

KCC Insitute of Engineering and technology, <i>B.Tech in Artificial Intelligence and Machine Learning</i>	2023 – Present Greater Noida
Supaul sr. secondary School,Supaul BSEB-Board, XII Science	2023
Villyams high School,Supaul BSEB-Board, X Percentage-77%	2021

PROJECTS

Online Learning Platform, <i>PYTHON (DJANGO), SQLITE3, HTML, CSS, JS</i> • Built a cloud-based LMS with modules for login, course, student, credential, and news management. • Integrated email alerts • Enhanced accessibility and efficiency for 250+ centers & 113+ courses.
Business Sales Dashboard, <i>Power BI, Excel/CSV, Power Query, DAX</i> • Cleaned and transformed e-commerce sales data (CSV/Excel) for reporting readiness. • Built an interactive Power BI dashboard to track sales trends and revenue performance. • Analyzed best-selling products, category-wise performance, and regional revenue distribution. • Delivered actionable insights to support data-driven business decisions.
Social Media Campaign Performance Tracker, <i>Power BI, Excel/Google Sheets</i> • Analyzed social media ad campaign data to evaluate overall performance and engagement. • Calculated and monitored key KPIs including CTR, CPC, and ROI. • Developed an interactive dashboard for campaign comparison and optimization tracking. • Reported performance insights and improvement recommendations for future campaigns.
College Event Feedback Analysis, <i>Google Colab, Python, Pandas, Matplotlib, TextBlob, CSV</i> • Processed and cleaned student feedback data from Google Forms exports (CSV format). • Performed rating-based analysis to identify satisfaction patterns and trends. • Applied sentiment analysis (TextBlob/VADER) on text responses to classify feedback. • Visualized insights and proposed improvements to enhance future campus events.

SKILLS

Programming Languages

- C
- Python

Framework

- Django

Tools & Technologies

- SQLite3
- HTML
- CSS
- JS
- GitHub

Tools For Data Analysis

- Ms Excel
- SQL
- Power BI
- Python

PROFESSIONAL EXPERIENCE

Future Interns, *Data Science & Analytics Intern*

12/2025 – 01/2026

- Analysed real-world datasets across sales, marketing, and education domains to generate actionable insights.
- Cleaned and processed raw data using Python, Pandas, and Excel for analysis and visualization.
- Built Power BI dashboards to track KPIs such as Sales, Profit, CTR, ROI, and campaign performance.
- Conducted student satisfaction analysis, computing weighted average scores from survey data.
- Applied sentiment analysis techniques (TextBlob & VADER) on structured feedback for insight generation.

Softpro India Computer Technologies Pvt. Ltd.,

08/2025 – 09/2025

Full Stack Development Intern

- Completed hands-on training in Full Stack Development with focus on Python, Django, HTML, CSS, JavaScript, and MySQL.
- Worked on real-world based projects, applying concepts of backend APIs, database management, and frontend integration.
- Gained experience in developing responsive web applications and following software development practices.
- Enhanced skills in problem-solving, teamwork, and project implementation under industry-level mentorship.

AnalytixLabs, *Data Science Trainee*

12/2025 – Present | Sector-15, Noida

- Gaining hands-on experience in Excel, focusing on data cleaning, analysis, and visualization.
- Practicing Python for data manipulation, exploratory analysis, and machine learning workflows.
- Strengthening SQL skills through query writing, data extraction, joins, aggregation, and optimization.
- Building interactive dashboards and reports using Power BI for data visualization.
- Working with real-world datasets to improve problem-solving, analytical thinking.

CERTIFICATES

- Python with Django - SPI
- Web development intern - Unified Mentor
- Data Science & Analytics Intern - Future Interns

ACTIVITIES

PR Lead, *HWLxKCC*

11/2025 – Present

Hackathons

- Deviathon
- Metanova
- Codealchemy 25
